

Ms. Kelli's Harmonizing Hippo Music Class

October Music Notes

This month we are still getting to know each other. It is exciting to see all of the different personalities. We are focusing on the colors orange and black and the triangle shape. We are using shakers and instruments to learn about beat and have some fun. We are also using songs with movements and ribbons to get us moving. Many of our songs this month have to do with Fall.

Here are a couple of the songs we have been working on, so you can have some music fun at home too!

This is Something Orange (or Black)

(tune of The Farmer in the Dell)

This is something orange
This is something orange
Can you tell me what it is
This is something orange

(I am using die cuts of many orange or black objects to help them associate the colors with familiar objects)

Where's the Triangle *(tune of Where is Thumbkin)*

Where's the Triangle, Where's the Triangle
On my toe, On my toe
Where's the Triangle, Where's the Triangle
On my toe, On my toe

(we point to body parts with our Triangle sticks choosing different body parts for each new verse)

From the lips of children and infants you have ordained praise

Psalm 8:2a
